Section I. Instructions to Offerors

I.1. Introduction

Chemonics, the Buyer, acting on behalf of the U.S. Agency for International Development (USAID) and the Global Health Supply Chain Program-Procurement and Supply Management (GHSC-PSM) under prime contract number AID-OAA-I-15-00004, task order AID-OAA-TO-16-00018 is soliciting offers from companies and organizations to submit proposals to participate with GHSC-PSM to develop additional commodity chapters for The Manual for Procurement and Supply of Quality-Assured Maternal, Newborn and Child Health Commodities.

GHSC PSM is ensuring an uninterrupted supply of health commodities to prevent suffering, save lives, and create a brighter future for families across the globe. The IDIQ has four task orders (TOs) that directly support the President's Emergency Plan for AIDS Relief (PEPFAR), the President's Malaria Initiative (PMI), Population and Reproductive Health (PRH) and the Office of Maternal and Child Health and Nutrition through an array of services for health commodity procurement and related systems strengthening technical assistance encompassing the different elements of a comprehensive supply chain. Under the IDIQ, the Maternal and Child Health (MCH) and Zika Commodities TO (TO4) provides USAID missions, bureaus, and operating units with a worldwide mechanism to support USAID's goal of ending preventable child and maternal deaths through increasing access to quality-assured commodities for maternal, newborn and child health (MNCH).

GHSC-PSM TO4 aims to support the objectives of the UN Commission on Life Saving Commodities (UNCoLSC) to respond to life-saving commodity knowledge needs at country level. In 2019, GHSC-PSM published The Manual for Procurement and Supply of Quality-Assured Maternal, Newborn and Child Health Commodities (<https://www.ghsupplychain.org/procurement-and-supply-quality-assured-maternal-newborn-and-child-health-commodities>). The manual was designed to assist procurement agencies and procurement specialists in establishing a quality assurance (QA) system for the procurement of MNCH products. It is the first of its kind to provide such comprehensive information on the specific quality requirements that must be met to ensure the quality, safety, and efficacy of MNCH products across the full MNCH supply chain in a country, up to the point of use. The manual also provides detailed product specifications for eight priority MNCH commodities. The objective of this activity is to increase knowledge around requirements for procurement of quality-assured maternal health products among government agencies and manufacturers through the creation of additional commodity chapters of the manual.

Offerors are invited to submit proposals in response to this RFP in accordance with **Section I Instructions to Offerors**, which will not be part of the subcontract. The instructions are intended to assist interested Offerors in the preparation of their offer. Any resulting subcontract will be guided by Sections II and III.

This RFP does not obligate Chemonics to execute a subcontract nor does it commit Chemonics to pay any costs incurred in the preparation and submission of the proposals. Furthermore, Chemonics reserves the right to reject any and all offers, if such action is considered to be in the best interest of Chemonics.

2. Technical Proposal

The technical proposal shall comprise the parts below. Please note that the proposal must be responsive to the detailed information set out in Section II of this RFP, which provides the background, states the scope of work, describes the deliverables, and provides a deliverables schedule.

- Part 1: Technical Approach, Methodology and Detailed Work Plan. This part shall be between 2 and 4 pages long but may not exceed 4 pages.
- Part 2: Management, Key Personnel, and Staffing Plan. This part shall be between 2 and 3 pages long but may not exceed 3 pages. CVs may be included in an annex to the technical proposal and will not count against the page limit.

Additionally, offerors must include three past performance references of similar work (under contracts or subcontracts) previously implemented as well as contact information for the companies for which such work was completed. Contact information must include at a minimum: name of point of contact who can speak to the offeror's performance, name and address of the company for which the work was performed, and email and phone number of the point of contact. Chemonics reserves the right to check additional references not provided by an offeror.

3. Cost Proposal

The cost proposal is used to determine which proposals represent the best value and serves as a basis of negotiation before award of a subcontract.

The price of the subcontract to be awarded will be an all-inclusive fixed price. Nevertheless, for the purpose of the proposal, offerors must provide a detailed budget showing major line items as well as a budget narrative. Offerors should include in the budget proposal the cost of one chapter which will be the same rate for up to seven chapters in the final subcontract. It is anticipated that the cost required to develop each chapter will not vary greatly depending on the commodity. If applicable, the offeror may include, cost savings or discounts based on economies of scale after developing one chapter as the structure and sections will likely be similar across chapters. The offeror shall describe this discount in the budget narrative. Please refer to Annex 2 for detailed instructions and a sample cost structure.

No profit, fees, taxes, or additional costs may be added after award.

I.8 Evaluation and Basis for Award

This RFP will use the tradeoff process to determine best value as set forth in FAR 15.101-1. That means that each proposal will be evaluated and scored against the evaluation criteria and evaluation sub-criteria, which are stated in the table below. Chemonics will award a subcontract to the offeror whose proposal represents the best value to Chemonics and the GHSC-PSM project. Chemonics may award to a higher priced offeror if a determination is made that the higher technical evaluation of that offeror merits the additional cost/price.

Evaluation points will not be awarded for cost, but for overall evaluation purposes of this RFP, technical evaluation factors other than cost, when combined, are considered significantly more important than cost factors. Cost will primarily be evaluated for realism and reasonableness. If technical scores are determined to be nearly equal, cost will become the determining factor.

In evaluating proposals, Chemonics will use the following evaluation criteria and sub-criteria:

Evaluation Criteria	Evaluation Sub-criteria	Maximum Points

Section III Firm Fixed Price Subcontract (Terms and Clauses)

Please see Annex 5 Firm Fixed Price Subcontract (Terms and Clauses).

Annex 2 Guide to Creating a Financial Proposal for a Fixed Price Subcontract

The purpose of this annex is to guide offerors in creating a budget for their cost proposal. Because the subcontract will be funded under a United States government-funded project, it is important that all offerors' budgets conform to this standard format. It is thus strongly recommended that offerors follow the steps described below.

Under no circumstances may cost information be included in the technical proposal. No cost information or any prices, whether for deliverables or line items, may be included in the technical proposal. Cost information must only be shown in the cost proposal.

Step 1: Design the technical proposal. Offerors should examine the market for the proposed activity and realistically assess how they can meet the needs as described in this RFP, specifically in section II. Offerors should present and describe this assessment in their technical proposals.

Step 2: Determine the basic costs associated with each deliverable. Offerors should consider best estimate of the costs associated with each deliverable, which should include labor and all non-labor costs, e.g. other direct costs, such as fringe, allowances, travel and transport, etc.

Step 3: Create a budget for the cost proposal. Each offeror must create a budget using a spreadsheet program compatible with MS Excel. The budget period should follow the technical proposal period. A sample budget is shown on the following page. All items and services must be clearly labeled and include the total offered price. The detailed budget must show major line items, including, for example:

1. Salaries
2. Indirect costs
3. Any other costs applicable to the work
4. DBA – see clause I. 11

All cost information must be expressed in U.S. dollars.

Step 4: Write Budget Narrative. The spreadsheets shall be accompanied by written notes in MS Word that explain each cost line item and the assumption why a cost is being budgeted as well as how the amount is reasonable. Supporting information must be provided in sufficient detail to allow for a complete analysis of each cost element or line item. Chemonics reserves the right to request additional cost information if the evaluation committee has concerns of the reasonableness, realism, or completeness of an offeror's proposed cost.

If it is an offeror's regular practice to budget indirect rates, e.g. overhead, fringe, G&A, administrative, or other rate, Offerors must explain the rates and the rates' base of application in the budget narrative. Chemonics reserves the right to request additional information to substantiate an Offeror's indirect rates.

Sample Budget

Offerors should revise the budget line items accordingly in response to the technical and cost requirements of this RFP.

Annex 4

DUNS and SAM Registration Guidance

What is DUNS?

The Data Universal Numbering System (DUNS) is a system developed and regulated by Dun & Bradstreet (D&B) - a company that provides information on corporations for use in credit decisions - that assigns a unique numeric identifier, referred to as a DUNS number, to a single business entity. The DUNS database contains over 100 million entries for businesses throughout the world, and is used by the United States Government, the United Nations, and the European Commission to identify companies. The DUNS number is widely used by both commercial and federal entities and was adopted as the standard business identifier for federal electronic commerce in October 1994. The DUNS number was also incorporated into the Federal Acquisition Regulation (FAR) in April 1998 as the Federal Government's contractor identification code for all procurement-related activities.

Why am I being requested to obtain a DUNS number?

U.S. law – in particular the Federal Funding Accountability and Transparency Act of 2006 (Pub.L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub.L. 110-252) - make it a requirement for all entities doing business with the U.S. Government to be registered, currently through the System for Award Management, a single, free, publicly- searchable website that includes information on each federal award. As part of this reporting requirement, prime contractors such as Chemonics must report information on qualifying subawards as outlined in FAR 52.204-10 and 2CFR Part 170. Chemonics is required to report subcontracts with an award valued at greater than or equal to \$30,000 under a prime contract and subawards under prime grants or prime cooperative agreements obligating funds of \$25,000 or more, whether U.S. or locally based. Because the U.S. Government uses DUNS numbers to uniquely identify businesses and organizations, Chemonics is required to enter subaward data with a corresponding DUNS number.

Is there a charge for obtaining a DUNS number?

No. Obtaining a DUNS number is absolutely free for all entities doing business with the Federal government. This includes current and prospective contractors, grantees, and loan recipients.

How do I obtain a DUNS number?

DUNS numbers can be obtained online at <http://fedgov.dnb.com/webform/pages/CCRSearch.jsp> or by phone at 1-800-234-3867 (for US, Puerto Rico and Virgin Island requests only).

What information will I need to obtain a DUNS number?

To request a DUNS number, you will need to provide the following information:

- Legal name and structure
- Tradestyle, Doing Business As (DBA), or other name by which your organization is commonly recognized
- Physical address, city, state and Zip Code
- Mailing address (if separate)
- Telephone number
- Contact name
- Number of employees at your location
- Description of operations and associated code (SIC code found at <https://www.osha.gov/pls/imis/sicsearch.html>)
- Annual sales and revenue information
- Headquarters name and address (if there is a reporting relationship to a parent corporate entity)

How long does it take to obtain a DUNS number?

Under normal circumstances the DUNS is issued within 1-2 business days when using the D&B web form process. If requested by phone, a DUNS can usually be provided immediately.

Are there exemptions to the DUNS number requirement?

There may be exemptions under specific prime contracts, based on an organization's previous fiscal year income when selected for a subcontract award, or Chemonics may agree that registration using the D&B web form process is impractical in certain situations. Organizations may discuss these options with the Chemonics representative.

What is CCR/SAM?

Central Contractor Registration (CCR)—which collected, validated, stored and disseminated data in support of agency acquisition and award missions—was consolidated with other federal systems into the System for Award Management (SAM). SAM is an official, free, U.S. government-operated website. There is NO charge to register or maintain your entity registration record in SAM.

When should I register in SAM?

While registration in SAM is not required for organizations receiving a grant under contract, subcontract or cooperative agreement from Chemonics, Chemonics requests that partners register in SAM if the organization meets the following criteria requiring executive compensation reporting in accordance with the FFATA regulations referenced above. SAM.gov registration allows an organization to directly report information and manage their organizational data instead of providing it to Chemonics. Reporting on executive compensation for the five highest paid executives is required for a qualifying subaward if in your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the DUNS number belongs):

- (1) received 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**
- (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**,
- (3) The public have **does not** have access to information about the compensation of the executives in your business or organization (the legal entity to which the DUNS number it provided belongs) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the US Internal Revenue Code of 1986.

If your organization meets the criteria to report executive compensation, the following sections of this document outline the benefits of and process for registration in SAM.gov. Registration may be initiated at <https://www.sam.gov>. There is NO fee to register for this site.

Why should I register in SAM?

Chemonics recommends that partners register in SAM to facilitate their management of organizational data and certifications related to any U.S. federal funding, including required executive compensation reporting. Executive compensation reporting for the five highest paid executives is required in connection with the reporting of a qualifying subaward if:

- a. In your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the DUNS number belongs) received (1) 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and,
- b. The public have does not have access to information about the compensation of the executives in your business or organization (the legal entity to which the DUNS number it provided belongs) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986.

What benefits do I receive from registering in SAM?

By registering in SAM, you gain the ability to bid on federal government contracts. Your registration does not guarantee your winning a government contract or increasing your level of business. Registration is simply a prerequisite before bidding on a contract. SAM also provides a central storage location for the registrant to supply its information, rather than with each federal agency or prime contractor separately. When information about your business changes, you only need to document the change in one place for every federal government agency to have the most up-to-date information.

How do I register in SAM?

Follow the step-by-step guidance for registering in SAM for assistance awards (under grants/cooperative agreements) at: https://www.sam.gov/sam/transcript/Quick_Guide_for_Grants_Registrations.pdf

Follow the step-by-step guidance for contracts registrations at:
https://www.sam.gov/sam/transcript/Quick_Guide_for_Contract_Registrations.pdf

You must have a Data Universal Numbering System (DUNS) number in order to begin either registration process.

If you already have the necessary information on hand (see below), the online registration takes approximately one hour to complete, depending upon the size and complexity of your business or organization.

What data is needed to register in SAM?

SAM registrants are required to submit detailed information on their company in various categories. Additional, non-mandatory information is also requested. Categories of required and requested information include:

* General Information - Includes, but is not limited to, DUNS number, CAGE Code, company name, Federal Tax Identification Number (TIN), location, receipts, employee numbers, and web site address.

* Corporate Information - Includes, but is not limited to, organization or business type and SBA-defined socioeconomic characteristics.

* Goods and Services Information - Includes, but is not limited to, NAICS code, SIC code, Product Service (PSC) code, and Federal Supply Classification (FSC) code.

(*Note: EDI Information is optional and may be provided only for businesses interested in conducting transactions through EDI.)

Each party shall bear its own costs of arbitration, including attorneys' and experts' fees. An arbitration decision shall be final and judgment may be entered upon it in accordance with applicable law in any court having jurisdiction.
- (c) *Duty to Continue to Perform.* Notwithstanding any such dispute, the Subcontractor shall proceed diligently with performance under this Subcontract in accordance with the Contractor's directions.
- (d) *Limitations.* Chemonics' entire liability for claims arising from or related to this Subcontract will in no event exceed the total subcontract price. Except for indemnification obligations, neither the Subcontractor or Chemonics will have any liability arising from or related to this Subcontract for (i) special, incidental, exemplary, or indirect damages, or for any economic consequential damages, or (ii) lost profits, business, revenue, goodwill or anticipated savings, even if any of the foregoing is foreseeable or even if a party has been advised of the possibility of such damages.
- (e) The Subcontractor acknowledges and agrees that it has no direct action against the U.S. Government or USAID for any claims arising under this Subcontract.

H.11 INDEMNITY

The Subcontractor shall defend, indemnify, and hold harmless Chemonics from any loss, damage, liability, claims, demands, suits, or judgments ("Claims") including any reasonable attorney's fees, and costs, as a result of any damage or injury to Chemonics or its employees, directors, officers, or agents, or properties, or for any injury to third persons (including, but not limited to Claims by Subcontractor's employees, directors, officers or agents) or their property which is directly or indirectly caused by the negligence, willful misconduct, breach of this Subcontract, or violation of statutory duties of Subcontractor, or its employees, officers, directors, or agents, arising out of or in connection with the performance of this Subcontract unless such Claim is caused by, or resulting from, a material breach of this Subcontract by Chemonics.

H.12 TERMINATION

(a) Chemonics may terminate performance of work under this Subcontract in whole or, from time to time, in part, if (1) the Senior Vice President, Project Management, or designee determines that a termination is in Chemonics' interest; or (2) The Subcontractor defaults in performing this Subcontract and fails to cure the default within 10 days (unless extended by Senior Vice President, Project Management, or designee after receiving a notice specifying the default. "Default" includes failure to make progress in the work so as to endanger performance. (b) The Senior Vice President, Project Management, or designee, shall terminate by delivering a Notice of Termination to the Subcontractor specifying whether termination is for default of the Subcontractor or for convenience of Chemonics, the extent of termination, and the effective date. If, after termination for default, it is determined that the Subcontractor was not in default or that the Subcontractor's failure to perform or to make progress in performance is due to causes beyond the control and without the fault or negligence of the Subcontractor as set forth in the Excusable Delays clause, the rights and obligations of the parties will be the same as if the termination was for the convenience of Chemonics.

(c) After receipt of a Notice of Termination, and except as directed by Senior Vice President, Project Management, or designee, the Subcontractor shall immediately proceed with the following obligations, regardless of any delay in determining or adjusting any amounts due under this clause:

- (1) Stop work as specified in the notice.
- (2) Place no further lower tier subcontracts or orders (referred to as lower tier subcontracts in this clause), except as necessary to complete the continued portion of the Subcontract.
- (3) Terminate all lower tier subcontracts to the extent they relate to the work terminated.
- (4) Assign to Chemonics, as directed by Senior Vice President, Project Management, or designee, all right, title, and interest of the Subcontractor under the lower tier subcontracts terminated, in which case Chemonics shall have the right to settle or to pay any termination settlement proposal arising out of those terminations.
- (5) With approval or ratification to the extent required by Senior Vice President, Project Management, or designee, settle all outstanding liabilities and termination settlement proposals arising from the termination of lower tier subcontracts, the cost of which will be reimbursable in whole or in part under this subcontract; approval or ratification will be final for purposes of this clause.
- (6) Transfer title (if not already transferred) and, as directed by Senior Vice President, Project Management, or designee, deliver the following to Chemonics:
 - (i) The fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated;
 - (ii) The completed or partially completed plans, drawings, information, and other property that, if the subcontract had been completed, would be required to be furnished to Chemonics; and
 - (iii) The jigs, dies, fixtures, and other special tools and tooling acquired or manufactured for this subcontract, the cost of which the Subcontractor has been or will be reimbursed under this subcontract.

(7) Complete performance of the work not terminated.

(8) Take any action that may be necessary, or that may direct, for the protection and preservation of the property related to this subcontract that is in the possession of the Subcontractor and in which Chemonics has or may acquire an interest.

(9) Use its best efforts to sell, as directed or authorized by Senior Vice President, Project Management, or designee, any property of the types referred to in paragraph (c)(6) of this clause; *provided, however*, that the Subcontractor (i) is not required to extend credit to any purchaser, and (ii) may acquire the property under the conditions prescribed by, and at prices approved by Senior Vice President, Project Management, or designee. The proceeds of any transfer or disposition will be applied to reduce any payments to be made by Chemonics under this subcontract, credited to the price or cost of the work, or paid in any other manner directed by the Senior Vice President, Project Management, or designee.

(d) The Subcontractor shall submit complete termination inventory schedules, if applicable, no later than 60 days from the effective date of termination, unless extended in writing by Senior Vice President, Project Management, or designee upon written request of the Subcontractor within this 60-day period.

(e) Reserved.

(f) After termination, the Subcontractor shall submit a final termination settlement proposal to Senior Vice President, Project Management, or designee in the form and with the certification prescribed by the Senior Vice President, Project Management, or designee. The Subcontractor shall submit the proposal promptly, no later than 60 days from the effective date of termination, unless extended in writing by Senior Vice President, Project Management, or designee upon written request of the Subcontractor within this 60 day period. However, if Senior Vice President, Project Management, or designee determines that the facts justify it, a termination settlement proposal may be received and acted on after 60 days or any extension. If the Subcontractor fails to submit the proposal within the time allowed, the Senior Vice President, Project Management, or designee may determine, on the basis of information available, the amount, if any, due the Subcontractor because of the termination, and shall pay the amount determined.

(g) Subject to paragraph (f) of this clause, the Subcontractor and Senior Vice President, Project Management, or designee may agree on the whole or any part of the amount to be paid (including an allowance for fee) because of the termination. The Subcontract shall be amended, and the Subcontractor paid the agreed amount.

(h) If the Subcontractor and the Senior Vice President, Project Management, or designee fail to agree in whole or in part on the amount of costs and/or fee to be paid because of the termination of work, the Senior Vice President, Project Management, or designee shall determine, on the basis of information available, the amount, if any, due the Subcontractor, and shall pay that amount, which shall include the following:

(1) All costs reimbursable under this subcontract, not previously paid, for the performance of this subcontract before the effective date of the termination, and those costs that may continue for a reasonable time with the approval of or as directed by Senior Vice President, Project Management, or designee; however, the Subcontractor shall discontinue those costs as rapidly as practicable.

(2) The cost of settling and paying termination settlement proposals under terminated lower tier subcontracts that are properly chargeable to the terminated portion of the subcontract if not included in paragraph (h)(1) of this clause.

(3) The reasonable costs of settlement of the work terminated, including (i) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data; (ii) The termination and settlement of lower tier subcontracts (excluding the amounts of such settlements); and (iii) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory. If the termination is for default, no amounts for the preparation of the Subcontractor's termination settlement proposal may be included.

(4) A portion of the fee payable under the subcontract, determined as follows:

(i) If the subcontract is terminated for the convenience of Chemonics, the settlement shall include a percentage of the fee equal to the percentage of completion of work contemplated under the subcontract, but excluding lower tier subcontract effort included in lower tier subcontractors' termination proposals, less previous payments for fee.

(ii) If the subcontract is terminated for default, the total fee payable shall be such proportionate part of the fee as the total number of articles (or amount of services) delivered to and accepted by Chemonics is to the total number of articles (or amount of services) of a like kind required by the subcontract.

(5) If the settlement includes only fee, it will be determined under paragraph (h)(4) of this clause.

(i) The cost principles and procedures in [Part 31](#) of the Federal Acquisition Regulation, in effect on the date of this Subcontract, shall govern all costs claimed, agreed to, or determined under this clause.

(j) The Subcontractor shall have the right of appeal, under the Disputes clause of this Subcontract, from any determination made by Senior Vice President, Project Management, or designee under paragraph (f), (h), or (l) of this clause, except that if the Subcontractor failed to submit the termination settlement proposal within the time provided in paragraph (f) and failed to request a time extension, there is no right of appeal. If the Senior Vice President, Project Management, or designee has made a determination of the amount due under paragraph (f), (h) or (l) of this clause, Chemonics shall pay the Subcontractor the following:

(1) The amount determined by the Senior Vice President, Project Management, or designee if there is no right of appeal or if no timely appeal has been taken; or

(2) The amount finally determined on an appeal.

(k) In arriving at the amount due the Subcontractor under this clause, there shall be deducted the following:

(1) All unliquidated advances or other payments to the Subcontractor under the terminated portion of this Subcontract;

(2) Any claim which Chemonics has against the Subcontractor under this Subcontract; and

(3) The agreed price for, or the proceeds of sale of materials, supplies, or other things acquired by the Subcontractor or sold under this clause and not recovered by or credited to Chemonics.

(l) The Subcontractor and Senior Vice President, Project Management, or designee must agree to any equitable adjustment in fee for the continued portion of the subcontract when there is a partial termination. The Senior Vice President, Project Management, or designee shall amend the subcontract to reflect the agreement.

(m) (1) Chemonics may, under the terms and conditions it prescribes, make partial payments and payments against costs incurred by the Subcontractor for the terminated portion of the Subcontract, if the Senior Vice President, Project Management, or designee believes the total of these payments will not exceed the amount to which the Subcontractor will be entitled. (2) If the total payments exceed the amount finally determined to be due, the Subcontractor shall repay the excess to Chemonics upon demand, together with interest computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). Interest shall be computed for the period from the date the excess payment is received by the Subcontractor to the date the excess is repaid. Interest shall not be charged on any excess payment due to a reduction in the Subcontractor's termination settlement proposal because of retention or other disposition of termination inventory until 10 days after the date of Senior Vice President, Project Management, or designee the retention or disposition, or a later date determined by the Senior Vice President, Project Management, or designee because of the circumstances.

(n) The provisions of this clause relating to fee are inapplicable if this Subcontract does not include a fee

H.13 COMPLIANCE WITH APPLICABLE LAWS AND REGULATIONS

The Subcontractor shall also comply with the applicable USAID regulations governing this subcontract, which are incorporated by reference into this subcontract, and appear in Section I, Clauses Incorporated by Reference.

H.20 EXECUTIVE ORDER ON TERRORISM FINANCING

The Subcontractor (including its employees, consultants and agents) by entering into this subcontract certifies that it does not engage, support or finance individuals and/or organizations associated with terrorism. The Subcontractor is reminded that U.S. Executive Orders and U.S. law prohibits transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. A list of entities and individuals subject to restrictions, prohibitions and sanctions can be found at the web site of the Department of Treasury's Office of Foreign Assets Control (OFAC), at <http://treasury.gov/ofac>. If the Subcontractor maintains a record in the System for Award Management (www.SAM.gov), the Subcontractor shall keep current such registration, including reporting of executive compensation data, as applicable. If reporting of executive compensation is applicable and the Subcontractor does not maintain a record in the System for Award Management, Subcontractor shall complete the "FSRS Reporting Questionnaire and Certification" found in Section I.6 within 7 days of each anniversary of the subcontract award date.

If obtaining a DUNS number and reporting data is impractical for the Subcontractor, the Subcontractor must notify Chemonics and shall submit to Chemonics within 7 days of subcontract award a memorandum detailing the attempts made by the Subcontractor to obtain registration and a justification of why registration and/or data reporting was impractical. Contractual remedies may apply unless Chemonics concurs with the documented impracticality of registration.

(d) Remedy.

Failure to comply with the reporting requirements in a timely manner as required under this section may constitute a material breach of the Subcontract and cause for withholding payment to the Subcontractor until the required information has been supplied to Chemonics or the Subcontractor demonstrates to Chemonics that its System for Award Management record has been updated. In addition to contractual remedies, Chemonics may make the Subcontractor's failure to comply with the reporting requirements a part of the Subcontractor's performance information record.

The Manual for Procurement and Supply of Quality-Assured Maternal, Newborn and Child Health Commodities

The Manual for Procurement and Supply of Quality-Assured Maternal, Newborn and Child Health Commodities is designed to assist procurement agencies and procurement specialists in establishing a quality assurance (QA) system for the procurement of maternal, newborn, and child health (MNCH) products. It is the first of its kind to provide such comprehensive information on the specific quality requirements that must be met to ensure the quality, safety, and efficacy of MNCH products across the full MNCH supply chain in a country, up to the point of use. The manual also provides detailed product specifications for priority MNCH commodities.
