

## **4 Operation**

### **4.1 Operating the machine in free vend mode**

1. Place a cup under the outlet on the cup stand.

All consumptions are dosed in the center of the cup stand except the hot chilled water.

2. Select your desired drink.
3. Follow the instructions on the screen.
4. After pressing the start button, the machine prepares your drink and dispenses it into the cup.
5. Your drink is ready after the beep and the message 'ready' is on the screen.
