Section I. Instructions to Offerors

I.1. Introduction

Chemonics International Inc. (hereinafter referred to as “Chemonics”), under the under the Global Health Supply Chain Program – Procurement and Supply Management (GHSC-PSM) project, USAID Contract No. AID-OAA-I-15-00004 and Task Order Nos. AID-OAA-TO-15-00007, AID-OAA-TO-15-00009, AID-OAA-TO-15-00010, and AID-OAA-TO-16-00018, is issuing an Indefinite Quantity Subcontract (IQS) Request for Proposals (IQSRFP) for system support and maintenance services for multiple information systems deployed leveraged for national supply chain operation in multiple GHSC-PSM supporting countries.

The purpose of the GHSC-PSM project is to ensure an uninterrupted supply of health commodities in support of U.S. government-funded public health initiatives around the world. The project provides direct procurement and supply-chain management support to the President’s Emergency Plan for AIDS Relief (PEPFAR), President’s Malaria Initiative (PMI), USAID’s population and reproductive health program, and USAID’s newborn, child health and maternal health program. To support U.S. government-funded global health activities, GHSC-PSM manages an array of health commodity procurement services and provides related systems strengthening technical assistance encompassing all elements of a comprehensive supply chain.

GHSC-PSM project has implemented numerous information systems (ISs) to support the efficient and effective national supply chain operation, increase efficiency and accuracy for operation and reduce redundant effort. The logistic management information system (LMIS), warehouse management system (WMS), procurement system, distribution, and transportation system are few examples of the information systems deployed.

As the same objectives of PSM supply chain operation, and complexity of system development and implementation, some information systems are rolled out to multiple GHSC-PSM countries. The centralized operational concept is to leverage the same systems proven to provide standard and cost-effective operations across countries.

The purpose of this acquisition is to procure advisory services and subject matter expertise to facilitate, execute electronic logistics management and information (e-LMIS) activities and ensure continuous operations. The offeror will support enhancements, support users and provide strategic guidance and technical expertise for a digital supply chain (DSC) strategy and architecture in Rwanda.

Chemonics will issue an award to one company or organization. The award will be in the form of an Indefinite Quantity Sub-Contract (IQS with Sub TO) hereinafter referred to as “the subcontract”) for an estimated initial period of performance through November 2023, with a one-year option to extend. The successful Offeror shall be required to adhere to the statement of work and terms and conditions of the subcontract, which are incorporated in Section III herein.

Offerors are invited to submit proposals in response to this RFP in accordance with **Section I Instructions to Offerors**, which will not be part of the IQS. The instructions are intended to assist interested Offerors in the preparation of their offer. Any resulting subcontract will be guided by Sections II and III. Chemonics will subsequently solicit individual orders for the scope of services requested. These individual orders are called sub-task orders (STOs). While the IQS will contain the main terms and conditions and the pricing methodology to be used in negotiating STOs, each STO will contain specific information regarding the services being requested by **GHSC-PSM**, the period of performance, deliverables, and other details about

the specific work ordered. STOs issued under the IQS will be on a **Fixed Price STOs** basis. The Offeror shall develop a budget (i.e., cost proposal) for each STO using the pricing methodology set forth in the IQS. Chemonics will not reimburse the Offeror for any costs associated with managing the IQS; each STO must stand on its own.

This RFP does not obligate Chemonics to execute any STOs nor does it commit Chemonics to pay any costs incurred in the preparation and submission of the proposals. Furthermore, Chemonics reserves the right to reject any and all offers, if such action is considered to be in the best interest of Chemonics.

Unless otherwise stated, the periods named in the RFP shall be consecutive calendar days.

I.2. Offer Deadline

Offerors shall submit their offers no later than 17:00 EST on November 28, 2022, at the following address: Rwanda Operation Procurement <operationprocurement@ghsc-psm.org>. Faxed offers will not be considered.

Offerors are responsible for ensuring that their offers are received in accordance with the instructions stated herein. In accordance to FAR 52.215-1(c)(3)(ii)(A) late offers may be considered at the discretion of Chemonics. Chemonics cannot guarantee that late offers will be considered.

The Offeror shall use the Past Performance Template included in Annex 5. Chemonics reserves the right to check additional references not provided by an offeror.

Chemonics reserves the right to check additional references not provided by an offeror.

The sections of the technical proposal stated above must respond to the detailed information set out in Section II of this RFP, which provides the background, states the scope of work, describes the deliverables, and provides a deliverables schedule.

3. Cost Proposal

The cost proposal is used to determine which proposals represent the best value and serves as a basis of negotiation before award of a subcontract.

The cost proposal must include the fixed daily rates for each labor category proposed in response to section B.2 for senior and mid-level project employees. Offerors shall ensure that no pricing information is displayed in the Technical Volume. Offerors will propose Fixed Daily Rates (FDRs) that will be used for the purpose of evaluating cost for the award of the IQS. The resulting subcontract will be an IQS, which will have a ceiling price under which STOs will be issued. The STOs will be issued for defined deliverables and with firm fixed prices. The IQS will have labor categories and levels with corresponding Fixed Daily Rates (FDRs). The FDRs incorporated in the IQS will be used to inform the creation of individual firm fixed price STOs. No profit, fees, taxes, or additional costs can be added after award.

Chemonics reserves the right to request additional cost information if the evaluation committee has concerns of the reasonableness, realism, or completeness of an offeror's proposed cost. All daily rates must be fully burdened (inclusive of all fees and overhead costs) and will remain in effect for the duration of the contract life. See Annex 2 for the cost structure of the fixed daily rates.

When proposing prices for individual sub-task orders, offerors will be required to propose level of effort (LOE) amounts that are aligned to approved labor categories, and will also be required to provide a detailed budget showing other direct costs (ODCs) and materials, such as travel costs, allowances, office supplies, services, insurance, etc. All items and services must be clearly labeled and must be included in the total offer price for the sub-task order. All sub-task orders will be awarded on a deliverable-based, firm fixed price basis.

The cost volume has no page limitation; however, the following shall be submitted in the format identified below. Please note that the below information shall be completed for the entire IQS pricing period:

a) Labor Categories

In order to successfully perform the SOW for STOs released under the IQS, offerors must propose one or more labor category and candidates that have the experience required for performing the activities as laid out in the SOW. The subcontractor shall detail their qualifications, responsibilities in the implementation of the SOW, and years of experience.

b) Fixed Daily Rates (FDR)

The offeror shall propose an FDR in **USD** for each labor category. Each proposed daily rate must be “burdened” and must only include the following:

- Salary cost or consulting fee of the individual providing the services;
- Payroll costs (e.g. fringe benefits, social insurance, bank fees);
- Indirect costs applicable to labor (e.g. corporate overhead or management/administrative fee);
- Indirect costs applicable to non-labor costs (e.g. corporate overhead or management/administrative fee applied to other direct costs/materials);
- Reasonable profit or fee, if any.

If the Offeror has commercial rates, Offeror must provide:

- (1) Their commercial rate sheet;
- (2) Proof of using these rates on 3 other contracts; and
- (3) Offer a discount to those commercial rates

The labor category and corresponding daily rates proposed by the offeror will be incorporated in the IQS and will remain fixed for the IQS period. The daily rates will then be used to price individual fixed price STOs, along with any materials necessary for performance of the STO. The Offeror shall use the budget template included in Annex 2 to propose their FDRs.

C) Materials

The Offeror shall budget for any other direct costs necessary for the performance of the work under STOs, such as travel and transportation, per diem, communications costs, etc. Per diem rates are set by the US Department of State - https://aoprals.state.gov/web920/per_diem.asp. Under this IQS’s pricing methodology, offerors are not allowed to apply an indirect or fee rate on Materials. If the Offeror has an established indirect rate structure and it is part of their accounting procedures to apply an indirect rate and/or fee on Materials, the cost must be factored into the FDR proposed for the IQS.

The cost proposal shall include a budget narrative that explains the basis for the estimate of every cost element or line item. Supporting information must be provided in sufficient detail to allow for a complete analysis of each cost element or line item.

Under no circumstances may cost information be included in the technical proposal. No cost information or any prices, whether for deliverables or line items, may be included in the technical proposal. Cost information must only be shown in the cost proposal.

All cost information must be expressed in USD. Although prices are expressed in USD, to comply with Rwandan legislation, payments under STOs will be made in the equivalent Rwandan Franc (RWF) amount as evidenced by the bank sell rate on the day of invoicing. Subcontractors will be required to show both the USD amount corresponding to IQS STO prices on invoices, and the RWF equivalent, and provide back up for their bank’s sell rate used for invoicing.

In accordance with the agreement under which this procurement is financed, Chemonics will request a Value Added Tax (VAT) exemption from the Rwandan government for taxes imposed on suppliers and

subcontractors. Therefore, if selected for award under sub-task orders, the selected supplier will show VAT amounts on their invoices in accordance with the laws of Rwanda and will cooperate in providing Chemonics with the documentation necessary to obtain a tax exemption.

Stipends and travel costs for any participants are not to be included in the costs. These costs, if applicable, will be covered separately and at-cost through each STO. In addition, software costs should not be included in the costs below; software required by the Subcontractor will be procured by Chemonics and provided in-kind.

All cost information must be expressed in **USD**. Offerors are invited to provide a narrative that accompanies each cost table that further elaborates the assumptions behind each unit cost.

Description and Specifications of Item	Unit	Unit Price

I.5. Indefinite Quantity Type Subcontract and Future STOs

a) This RFP will result in the award of an indefinite quantity type subcontract with STOs issued thereunder priced on a firm fixed price basis to one offeror. These STOs will be issued as the need arises. The award of the IQS – including quantities of supplies and services specified under it - are estimates only and are not purchased by the awarded IQS.

A Fixed Price STO is a subcontract for services, reports, or other tangible deliverables provided to and accepted by Chemonics on behalf of GHSC-PSM. As the name implies, the price of the STO is fixed, and it is not subject to any adjustment on the basis of the Subcontractor's cost experience in performing the work.

b) Delivery or performance shall be made only as authorized by STOs issued in accordance with the Ordering Procedures contained within the IQS. The Subcontractor shall furnish to Chemonics, when and if ordered, the supplies or services specified in the SOW of this subcontract up to and including the quantity designated in the IQS as the “Maximum Subcontract Ceiling,” currently estimated at **\$131,000** Chemonics will order at least the quantity of supplies or services designated in the subcontract as the “Minimum Order Guarantee,” currently estimated at **\$500**.

c) Except for any limitations on quantities in the STO Limitations clause, there is no limit on the number of STOs that may be issued. Chemonics may issue STOs requiring delivery to multiple destinations or performance at multiple locations.

I.6. Source of Funding, Authorized Geographic Code

a) Any subcontract resulting from this RFP will be financed by USAID funding and will be subject to U.S. Government and USAID regulations. All goods and services offered in response to this RFP or supplied under any resulting award must meet USAID Geographic Code 935 in accordance with the United States Code of Federal Regulations (CFR), 22 CFR §228, available at: <https://www.ecfr.gov/cgi-bin/text-idx?SID=bc646daa32249b2fcda27d1fce1c8ed2&mc=true&node=pt22.1.228&rgn=div5>.

The cooperating country for this RFP is Rwanda.

Offerors may not offer or supply any products, commodities or related services that are manufactured or assembled in, shipped from, transported through, or otherwise involving any of the following countries: Cuba, Iran, North Korea, Syria. Related services include incidental services pertaining to any/all aspects of this work to be performed under a resulting contract (including transportation, fuel, lodging, meals, and communications expenses).

- b) The USG has implemented a blanket prohibition on providing direct government financing to international solar projects that source from suppliers that are the subject of a [withhold release order](#) (Hoshine Silicon Industry), on the Commerce Entity List, or otherwise sanctioned for their use of forced labor. The PRC energy companies that were added to the Commerce Entity List for their ties to forced labor are found below. NOTE: the subcontractor may not purchase from any of the Suppliers listed below without advance written approval from Chemonics/USAID.
- Hoshine Silicon Industry (metallurgical grade silicon and silicon products) - also subject to a WRO
 - Xinjiang Daqo New Energy (polysilicon, wafers)
 - Xinjiang East Hope Nonferrous Metals (polysilicon, ingots, wafers)
 - Xinjiang GCL-New Energy Material (polysilicon, ingots, wafers, cells, modules)
 - Xinjiang Production and Construction Corps (state-owned paramilitary organization, electricity supplier).

This does not mean that all PRC-produced solar panels are immediately blocked. Currently, the restriction is just on any panels or products that are directly purchased using USG funds from any of the above companies. Should the purchase of any solar panels or components be required, Chemonics/USAID prior review and written approval is required.

I.9. Evaluation and Basis for Award

An award will be made to the offeror whose proposal is determined to be responsive to this solicitation document, meets the eligibility criteria stated in this RFP, meets the technical, management/personnel, and corporate capability requirements, and is determined to represent the best value to Chemonics. Best value will be decided using the tradeoff process.

This RFP will use the tradeoff process to determine best value. That means that each proposal will be evaluated and scored against the evaluation criteria and evaluation sub-criteria, which are stated in the table below. Cost proposals are not assigned points, but for overall evaluation purposes of this RFP, technical evaluation factors other than cost, when combined, are considered significantly more important than cost factors. If technical scores are determined to be equal or nearly equal, cost will become the determining factor.

In evaluating proposals, Chemonics will use the following evaluation criteria and sub-criteria:

Evaluation Criteria	Evaluation Sub-criteria	Maximum Points
Technical Approach, Methodology, and Detailed Work Plan		
	Technical know-how – Does the proposal clearly explain, understand, and respond to the objectives of the project as stated in the Scope of Work? Has the offeror indicated all tools and resources required to provide the necessary services? Tools need to include ticketing management system.	15 points
	Approach and Methodology – Does the proposed program approach and detailed activities and timeline fulfill the requirements of executing the Scope of Work effectively and efficiently?	15 points
	Sector Knowledge – Does the proposal demonstrate the offeror’s knowledge related to technical sectors required by the SOW? Does the proposal demonstrate the offeror’s	10 points

	understanding of the Public Health Supply Chain? Does the proposal indicate a working experience with software systems specified in the qualification section.	
Total Points – Technical Approach		40 points
Management, Key Personnel, and Staffing Plan		
	Personnel Qualifications – Do the proposed team members have the necessary experience and capabilities to carry out the Scope of Work? What resources does the offeror propose? Are the offeror’s proposed personnel and team configuration realistic for achieving the work with minimal project support? Including a description of the Organizational Structure and Staffing.	30 points
Total Points – Management		30 points
Corporate Capabilities, Experience, and Past Performance		
	Company Background and Experience – Does the company have experience relevant to the project Scope of Work, namely implementing similar projects in elsewhere?	30 points
Total Points – Corporate Capabilities		30 points
Total Points		100 points

Evaluation points will not be awarded for cost. Cost will primarily be evaluated for realism and reasonableness. If technical scores are determined to be nearly equal, cost will become the determining factor.

This RFP utilizes the tradeoff process set forth in FAR 15.101-1. Chemonics will award a subcontract to the offeror whose proposal represents the best value to Chemonics and the GHSC-PSM project. Chemonics may award to a higher priced offeror if a determination is made that the higher technical evaluation of that offeror merits the additional cost/price.

I.10. Negotiations

Best offer proposals are requested. It is anticipated that a IQS will be awarded solely on the basis of the original offers received. However, Chemonics reserves the right to conduct discussions, negotiations and/or request clarifications prior to awarding a IQS. Furthermore, Chemonics reserves the right to conduct a competitive range and to limit the number of offerors in the competitive range to permit an efficient evaluation environment among the most highly-rated proposals. Highest-rated offerors, as determined by the technical evaluation committee, may be asked to submit their best prices or technical responses during a competitive range. At the sole discretion of Chemonics, offerors may be requested to conduct oral presentations. Annex 2 Guide to Creating a Financial Proposal for an IQS

The purpose of this annex is to guide offerors in creating a budget for their cost proposal. Because the subcontract will be funded under a United States government-funded project, it is important that all offerors’ budgets conform to this standard format. It is thus recommended that offerors follow the steps described below.

Step 1: Each offeror must determine a list of labor categories required to implement the SOW in this RFP. Establish the level of seniority for each labor category, minimum qualifications, and list of responsibilities for the labor category required to implement the scope of work. These labor categories, qualifications, and responsibilities will be included in the resulting IQS subcontract.

Step 2: Establish Fixed Daily Rates in USD for each labor category. Each proposed daily rate must be “burdened” and must only include the following:

- Salary cost or consulting fee of the individual providing the services;
- Payroll costs (e.g. fringe benefits, social insurance, bank fees);
- Indirect costs applicable to labor (e.g. corporate overhead or management/administrative fee);
- Indirect costs applicable to non-labor costs (e.g. corporate overhead or management/administrative fee applied to other direct costs/materials);
- Reasonable profit or fee, if any.
- If the Offeror, has commercial rates, he should provide them per instructions in this RFP.

The subcontract resulting from this RFP will be an Indefinite Quantity Subcontract (IQS). The IQS will have labor categories and levels linked to minimum qualifications and responsibilities for each position and corresponding Fixed Daily Rates (FDRs). The FDRs incorporated in the IQS will be used to inform the creation of individual firm fixed price STOs. A sample budget for labor categories and FDRs is shown below.

Step 3: Write Cost Notes. The spreadsheets shall be accompanied by written notes that explain each labor category and the assumptions made, as well as how the amount is reasonable.

52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS

Certification Regarding Responsibility Matters (Apr 2010)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have have not , within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(C) Are are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent U.S. Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) U.S. Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples.

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of U.S. Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The

taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has () has not (), within a three-year period preceding this offer, had one or more contracts terminated for default by any U.S. Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment; and similar positions). This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

Annex 4 UEI and SAM Registration Guidance

What is UEI?

The Unique Entity Identifier, or the UEI, is the official name of the “new, non-proprietary identifier” that will replace the DUNS number. The UEI will be requested in, and assigned by, the System for Award Management (SAM.gov). Businesses and organizations who receive funding from the US government

will have to use a Unique Entity Identifier (UEI) created in SAM.gov. The UEI number helps the USG to identify companies.

Why am I being requested to obtain a UEI number?

U.S. law – in particular the Federal Funding Accountability and Transparency Act of 2006 (Pub.L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub.L. 110-252) - make it a requirement for all entities doing business with the U.S. Government to be registered, currently through the System for Award Management, a single, free, publicly- searchable website that includes information on each federal award. As part of this reporting requirement, prime contractors such as Chemonics must report information on qualifying subawards as outlined in FAR 52.204-10 and 2CFR Part 170. Chemonics is required to report subcontracts with an award valued at greater than or equal to \$30,000 under a prime contract and subawards under prime grants or prime cooperative agreements obligating funds of \$25,000 or more, whether U.S. or locally-based. Because the U.S. Government uses UEI numbers to uniquely identify businesses and organizations, Chemonics is required to enter subaward data with a corresponding UEI number.

Is there a charge for obtaining a UEI number?

No. Obtaining a UEI number is absolutely free for all entities doing business with the Federal government. This includes current and prospective contractors, grantees, and loan recipients.

How do I obtain a UEI number?

UEI numbers can be obtained online at sam.gov.

What information will I need to obtain a UEI number?

To request a UEI number, you will need to provide the following information:

- Legal name and structure
- Tradestyle, Doing Business As (DBA), or other name by which your organization is commonly recognized
- Physical address, city, state and Zip Code
- Mailing address (if separate)
- Telephone number
- Contact name
- Number of employees at your location
- Description of operations and associated code (SIC code found at <https://www.osha.gov/pls/imis/sicsearch.html>)
- Annual sales and revenue information
- Headquarters name and address (if there is a reporting relationship to a parent corporate entity)

How long does it take to obtain a UEI number?

The UEI number is issued immediately upon completion of the request process.

Are there exemptions to the UEI number requirement?

There may be exemptions under specific prime contracts, based on an organization's previous fiscal year income when selected for a subcontract award, or Chemonics may agree that registration is impractical in certain situations. Organizations may discuss these options with the Chemonics representative.

What is CCR/SAM?

Central Contractor Registration (CCR)—which collected, validated, stored and disseminated data in support of agency acquisition and award missions—was consolidated with other federal systems into the System for Award Management (SAM). SAM is an official, free, U.S. government-operated website. There is NO charge to register or maintain your entity registration record in SAM.

When should I register in SAM?

While registration in SAM is not required for organizations receiving a grant under contract, subcontract or cooperative agreement from Chemonics, Chemonics requests that partners register in SAM if the organization meets the following criteria requiring executive compensation reporting in accordance with the FFATA regulations referenced above. SAM.gov registration allows an organization to directly report information and manage their organizational data instead of providing it to Chemonics. Reporting on executive compensation for the five highest paid executives is required for a qualifying subaward if in your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the UEI number belongs):

- (1) received 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**
- (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; **and**,
- (3) The public have **does not** have access to information about the compensation of the executives in your business or organization (the legal entity to which the UEI number it provided belongs) through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the US Internal Revenue Code of 1986.

If your organization meets the criteria to report executive compensation, the following sections of this document outline the benefits of and process for registration in SAM.gov. Registration may be initiated at <https://www.sam.gov>. There is NO fee to register for this site.

Why should I register in SAM?

Chemonics recommends that partners register in SAM to facilitate their management of organizational data and certifications related to any U.S. federal funding, including required executive compensation reporting. Executive compensation reporting for the five highest paid executives is required in connection with the reporting of a qualifying subaward if:

- a. In your business or organization's preceding completed fiscal year, your business or organization (the legal entity to which the UEI number belongs) received (1) 80 percent or more of its annual gross revenues in U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and (2) \$25,000,000 or more in annual gross revenues from U.S. federal contracts, subcontracts, loans, grants, subgrants, and/or cooperative agreements; and,
- b. The public have does not have access to information about the compensation of the executives in your business or organization (the legal entity to which the UEI number it provided belongs)

through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986.

What benefits do I receive from registering in SAM?

By registering in SAM, you gain the ability to bid on federal government contracts. Your registration does not guarantee your winning a government contract or increasing your level of business. Registration is simply a prerequisite before bidding on a contract. SAM also provides a central storage location for the registrant to supply its information, rather than with each federal agency or prime contractor separately. When information about your business changes, you only need to document the change in one place for every federal government agency to have the most up-to-date information.

How do I register in SAM?

Follow the step-by-step guidance for registering in SAM for assistance awards (under grants/cooperative agreements) at: https://www.sam.gov/sam/transcript/Quick_Guide_for_Grants_Registrations.pdf

Follow the step-by-step guidance for contracts registrations at:
https://www.sam.gov/sam/transcript/Quick_Guide_for_Contract_Registrations.pdf

You must have a UEI number in order to begin either registration process.

If you already have the necessary information on hand (see below), the online registration takes approximately one hour to complete, depending upon the size and complexity of your business or organization.

What data is needed to register in SAM?

SAM registrants are required to submit detailed information on their company in various categories. Additional, non-mandatory information is also requested. Categories of required and requested information include:

- * General Information - Includes, but is not limited to, UEI number, CAGE Code, company name, Federal Tax Identification Number (TIN), location, receipts, employee numbers, and web site address.
- * Corporate Information - Includes, but is not limited to, organization or business type and SBA-defined socioeconomic characteristics.
