As stipulated in the provisions of IQS # XXX, Section B.2: “Given regulatory fluctuations in fuel prices, the rate for fuel is based on estimated fuel economy per vehicle size and is based on established national pricing by the Energy Regulation Board (ERB). ERB pricing under the IQS shall therefore be reviewed monthly by all parties. Should changes be introduced by the ERB during the period under review, the pricing will be updated by a Pricing Agreement to be signed by all parties. The Pricing Agreement shall include an updated copy of the Price List Table, updated to reflect the variable fuel rate. The fixed-based unit cost and estimated fuel economy per vehicle size shall not be adjusted during this period. Pricing shall be effective for POs issued after full execution of a Pricing Agreement.”

As of a review of ERB pricing, the below updated prices shall be in effect upon full execution of this Pricing Agreement as of **INSERT DATE**.
