

**Responses to questions received for Request for Proposals for Development through Systems Strengthening (RFP No RFP-TO1-01-2023)**

**Updated November 29, 2023**

	<b>Questions Received for RFP</b>	<b>GHSC-PSM Responses to the Questions</b>
1	Can you please provide more clarity on what is meant by "long-term goals experts expect from supply chain investments" on Activity 2?	A better word choice would be "long-term impacts" rather than "long-term goals". We cannot elaborate on this point as we do not know what experts think are the expected impacts.
2	Can you please confirm whether the meeting is envisioned to be in-person for Activity 4?	The meeting is envisioned to be hybrid. In-person with online option for those who cannot attend in person.
3	If the above answer is yes, should we assume attendees will cover their own travel costs or should travel costs be part of the subcontractor's budget?	Each organization would sponsor their own attendees to this meeting.
4	What are the goals/objectives of this meeting for Activity 4?	The overarching goal of this meeting is to gather thought leaders from this space and understand what has been used to date to measure the impact of the supply chain investments. This would be further fleshed out and defined based on the stakeholder interviews and literature review with relevant findings shared during the meeting.
5	Is there any indication of what the budget will be?	GHSC-PSM kindly requests that bidders submit budgets that reflect the level of effort and other costs that would be required to complete the scope of work within this budget. The anticipated range is approximately \$250k-\$350k.
