As stipulated in the provisions of IQS # XXX, Section B.2:

“For the purpose of this IQS, ‘per drop’ pricing using a fixed unit rate for delivery shall be applied to sites that cannot be reached using conventional vehicles...For these cases, the IQS will rely on fixed unit rates that shall be applied per delivery to a given facility as outlined in the Per Drop Pricing Agreement...These rates shall apply regardless of volume and regardless of transportation methodology/methodologies. These rates shall also assume predetermined variability in fuel pricing for portions of the route that may require fuel, and thus shall not be adapted for fuel variability. The list of facilities shall be periodically reviewed during the course of the subcontract via the Per Drop Pricing Agreement. Should new facilities need to be added to the Annexes, prices for new additions will be negotiated and documented via updates to the Annex that involve tripartite review and signature.”

In accordance with the above, the below list shall be in effect upon full execution of this Per Drop Pricing Agreement:

Indefinite Quantity Subcontract (IQS) # XXX with VENDOR NAME FOR POINT OF ORIGIN
